

# Dear Valued Customer,

2022, WOW! Extraordinary high freight, late shipments, charter vessels and having to buy the containers proved to be a huge challenge for the entire industry. And we made it like we always do.

Looking forward to 2023, the surge in the Chinese domestic market is still making it hard to produce, ship and receive small items for the US market. This trend will continue for some time. Hale Fireworks is working hard on this problem by searching every nook and cranny in every factory not only in China but other countries as well. We will do our best to serve our customers as always.

The good news is that Hale Fireworks witnessed the biggest one-day sales of fireworks for New Years Eve in it's history. Cold and rainy weather made for a slow start, but once it warmed up so did sales. This is good testimony that the fireworks industry can withstand higher fuel prices, increased interest rates and record inflation. We at Hale Fireworks believe the trend of good fireworks sales will continue on into this 4th of July season. Now more than ever, people want to celebrate something and what better way to celebrate than with fireworks on our Independence Day!

New items have been added to the famous Hale Brands for 2023. "Back the Blue", "Screaming Mimi", "Pop Rocks", "Battle Bots", "Double OT Buck", are just a few new items added to our industry leading line up. These new items help push Hale Fireworks to the fore-front of the industry with famous brands such as; Pyro Predator, Golden Bear, Shotgun, Ghost Shadow and KONG! More new items from popular brands such as; Brothers, Winda, Happy Family, T-Sky, Raccoon, Dominator, Boom Wow, Miracle, Pyro Diablo, and Bright Star will also be offered for the 2023 season.

Thank you for your continued patronage with Hale Fireworks. We firmly believe that fireworks continue to offer patriotism, celebration, and pride in the USA, the greatest country in the world.

# Mom,

I have been searching for these words for over a day now and words cannot even begin to describe you. You were my absolute world and my absolute everything. Everything I did in my life I did to make you proud and everything I will continue to do will be to just make you happier. To say March 8th, 2023 was the worst day of my life is an understatement. I know you were always there for me, and now that will be the case as you will always be with me now. There are so many things I loved about you, your support, your care, your homemade fried chicken. Most importantly it was your care and love for other people each and every day. You were someone who would do something for anyone at the drop of a hat. I promise that I will continue to reach for the stars just like you always said. No matter what, I promise to make sure Stuart is taken care of and that I care of the baby love loves. I know the past two days have been the toughest time for me, but you always told me to be strong and to remember how many great times we had together. I don't believe this is goodbye in the slightest I just believe this is see you down the road. If I could give anyone advice it would be just to take 5 minutes and call your moms and tell them that you love them. I love you eternally forever mom and the world just lost a really good person. I love you a bushel and a peck, a bushel and a peck, and a hug around the neck.
